

Initial Build Notes

Creative Director: Chandra Phenpimon

Designer: Jeffrey Gong

11/15/2023

Project Title: Hilma af Klint Website

- Signature-style text on the Artwork page gets cut off
 - Some ways I think can help resolve this:
 - Maybe make the font size smaller
 - Or adjust the column width to be larger
 - Or add a scroll bar to it so the user can access the information easily
- Work on the bar on the home page to be like the nav bar
- When you click on the arrow it will take you to the Early Life page
- Extra points if the user can click on the individual artworks on the gallery page and the image would become larger to see the details
- Overall thoughts: You have made amazing progress and I'm not worried at all about how this will turn out. It looks great and I love the hover state on the nav bar, the details of the images in the footer, and the new font choice for the body copy. Let me know if you have any questions about translating this into mobile size. Have fun with it!
