

# Content Outline

Chandra Phenpimon 10/31/2023

## Project Title: Hilma af Klint Website

I'd like to build this site as multiple pages, rather than a long, single-page website. There will be a navigation tab across the top of the page to make it straightforward for visitors to browse through the website and they can quickly jump between sections of interest. There is a lot of content and high-quality photography to build out individual pages.

**Home Page/Introduction** – Introduce Hilma Klint and provide a short summary of who she is and the type of artwork she created.

**Early life** – Details about her background, birthplace, family, and upbringing. Talk about how her early life influenced her artistic development.

**Spiritual and Philosophical Ideas** – Talk about Hilma's spiritual and philosophical interests and the role it plays in her art. Show artwork that reflects some of her spiritual and philosophical influences.

**Artwork** – Overview of Her Artistic Career: Detail the evolution of her art, show some of her most famous pieces and discuss her techniques, materials, and artistic process.

- **Signature Style** – In-depth exploration of her abstract style. Focus on her use of symbolism, color, and geometry in her work.

**Legacy** – Discuss the impact of Hilma af Klint's work on the art world and her influence on future artists.

**Gallery** – Create a dedicated page with an extensive gallery to show a wide range of her artwork, probably in a grid format

**Sources** – this page will list, including the Wikipedia page

([https://en.wikipedia.org/wiki/Hilma\\_af\\_Klint#](https://en.wikipedia.org/wiki/Hilma_af_Klint#)), as well as her foundation's website (<https://hilmaafklint.se/>) which is where the images of her artwork will be from
